Education

POLITECNICO DI MILANO - KTH ROYAL INSTITUTE OF TECHNOLOGY — *Milan, Italy - Stockholm, Sweden*

Double Degree Master of Science in High Performance Computing (EIT Digital) — *March 2025 - Present*

- Relevant courses: Advanced Software Engineering, High performance Scientific computing in Aerospace, Advanced Mathematical Models in Finance, Robotics.

POLITECNICO DI MILANO - ELIS COLLEGE — *Milan - Rome, Italy*

Bachelor's Degree in Engineering of Computing Systems — *September 2021 - March 2025*

- **Relevant courses (Polimi):** Algorithms and Data Structures, Software Engineering, Fundamentals of Computer Science, Artificial Intelligence (AI), Databases (DB), Operative Systems (OS), Computer Architectures, Control Theory.
- **Technical courses (ELIS):** SQL, Analysis and design with UML diagrams, Java SE 11, Linux, Java EE, Spring Framework, Angular Framework, Data Science, Docker, AWS, Cybersecurity.

Extracurricular Activity

Polimi Sailing Team — *Milano, Italy*

Co-Head of Mechatronics Department — *March 2025 - Present*

- Engineered the communication pipeline between onboard sensors and the Moth boat's control system utilizing ROS2.
- Developed a full-stack user interface with Angular and Node.ts for real-time adjustment of control parameters and mapping the boat.
- Led the mechatronics team, organizing and conducting technical training sessions to upskill members on new technologies.

AIRLab Polimi (Artificial Intelligence and Robotics Lab) — *Milano, Italy*

Robotics Team Member (Field Robot Event) — *March 2026 - June 2026*

- Developed an autonomous robot capable of navigating through corn crop rows to perform specific agricultural tasks.
- Integrated and calibrated advanced hardware sensors, including LIDAR, IMU, and ZED cameras, for environment perception and mapping.

Work Experience

AVR Tech — *Rome, Italy*

Software Engineer Intern — *Mar. 2024 - Jul. 2024*, *Mar. 2023 - Jul. 2023*

- **Technologies:** Node.js, PostgreSQL, Angular, TailwindCSS, Git.
- Digitalization of the management of active and passive claims handler under service contracts between the company and its customers.
- Digitalization of work reporting in road management by developing a responsive web application, saving carbon footprint, data collection, and processing times by 13,200 work hours per year.

Side Projects

BJ-Safer | BSc's thesis - Passed with maximum Grade — *GITHUB REPO*

Java, Spring, Angular, Postgres, SQL, TailwindCSS, JUnnit, GIT — *March 2024 - June 2024*

- Applied 5 design patterns and unit testing with 93/100 code coverage to optimise code quality and speed.

Technical Skills

Technologies Amazon Web Services (AWS), Angular, Bootstrap, C, C++, CSS, Docker, Express.js, Git, Java, JavaScript (JS), JUnit, Leaflet, Node.js, Prisma, Spring, SQL, TailwindCSS, TypeScript (TS), ROS2.

Certifications

2022 **Java SE 11 Developer**, ORACLE — *Rome, Italy*
